| PROJECT OVERVIEW | <p>The Department of Science and Technology (DOST) STARBOOKS Whiz Challenge is an interactive digital quiz platform designed to enhance user engagement with STARBOOKS content. The system enables users to participate in gamified quizzes based on science and technology topics, promoting learning through competition, rewards, and real-time feedback.</p> <p>It also provides administrators with tools to monitor participation, track performance analytics, and manage rewards efficiently.</p> |        |                                 |
| OBJECTIVES       | <ul style="list-style-type: none"><li>• Develop an interactive and user-friendly quiz platform</li><li>• Increase engagement with STARBOOKS content through gamification</li><li>• Implement leaderboards, rewards, and performance tracking</li><li>• Provide analytics dashboard for monitoring user activity and trends</li></ul>                                                                                                                                                                      |        |                                 |
| SCOPE            | Design and develop a web-based or kiosk-compatible quiz system integrated with STARBOOKS content, including user participation features, admin controls, leaderboard systems, and analytics tracking.                                                                                                                                                                                                                                                                                                     |        |                                 |
| DELIVERABLES     | User Interface (UI) Design<br>Functional Quiz Platform (Web/Kiosk-based)<br>Leaderboard and Rewards System<br>Admin Dashboard with Analytics<br>Training Guide and Documentation<br>Testing and Acceptance Report                                                                                                                                                                                                                                                                                         |        |                                 |
| SUCCESS CRITERIA | Achieve high user participation and engagement rates<br>Increase frequency of STARBOOKS usage<br>Positive user feedback and usability ratings<br>Accurate tracking of scores, rewards, and analytics                                                                                                                                                                                                                                                                                                      |        |                                 |
| TARGET AUDIENCE  | Students (Primary and Secondary Levels)<br>Educators and Facilitators<br>STARBOOKS Users in Schools and Community Centers                                                                                                                                                                                                                                                                                                                                                                                 |        |                                 |
